

Knitted Glass Cord

| <u>Availability</u> | Diameter | Coil |
|---------------------|----------|------|
| | 4mm | 100m |
| | 6mm | 100m |
| | 8mm | 100m |
| | 9mm | 100m |
| | 10mm | 100m |
| | 12mm | 100m |

THS glass knitted packings are manufactured from high quality texturised E glass yarns with a micron size of 9 micron. The PKG3 range is produced by knitting over a core thread. This centre thread drastically reduces its elasticity. Packings can also be produced with a black finish.

This product is highly resilient and versatile, which makes it an extremely good sealing material.

Other roll sizes are available on request, together with other diameters although, in such cases, minimum quantities will apply.

The fibres will not rot, and are unaffected by insects, fungi, and bacteria, etc. also resistant to oils, solvents, and most chemicals.

Suitable for continuous use at temperatures up to 550°C.

If you have any technical queries please feel free to phone us: 01422 311 607.

THS Industrial Textiles Ltd reserves the right to alter any of the elements quoted in the above specification without prior notice. Please note that the above information is given in good faith and should be considered as a guide only, if any values in this specification are of critical importance then we strongly recommend the user arranges independent testing themselves. Test methods mentioned are considered as guides only, actual methods may differ slightly in practice. Suitability of the product for all applications is at the discretion of the user, as are any potential patent infringements relating to specific applications.
